PROFESSIONAL SUMMARY

Senior Backend Engineer with 7+ years of experience designing scalable backend systems, cloud-native applications, and enterprise integrations. Specialises in FastAPI (Python), Laravel (PHP), and AWS serverless technologies. Proven track record leading teams in modernising legacy systems into microservices architectures. Currently focused on Generative AI — architecting RAG platforms, integrating OpenAI LLMs, implementing MongoDB Vector Search, and building Agentic AI workflows that automate business processes and enhance decision-making through intelligent systems.

WORK EXPERIENCE

Software Development Manager

MK Themed Attractions Philippines | December 2024 – Present | Angeles, Pampanga

- Led cross-functional team (2 Frontend, 2 Backend, 1 QA) using Agile/Scrum, modernising legacy monolithic systems into distributed microservices using FastAPI (Python) and Laravel (PHP).
- Architected a production-grade GenAI RAG platform integrating OpenAI LLMs and MongoDB Vector Search — implementing embedding generation, vector indexing, and semantic search to automate factory data analysis and material consumption auditing.
- Built and orchestrated Agentic AI workflows using LangChain and LangGraph automating e-commerce client onboarding and follow-ups, reducing manual customer service workloads by ~70%.
- Developed an AI-powered marketing agent system generating interactive brochures and automating outbound email campaigns to 127,000+ leads using LangChain, LangGraph, and Zoho integration.
- Spearheaded AWS Serverless cloud modernisation using Bref, migrating a legacy on-premise application (~300 concurrent users) reducing infrastructure costs to ~USD 30/month.
- Aligned technical roadmaps with business objectives through stakeholder management; mentored engineers via architectural reviews and technical guidance.

API and Automation Specialist

MK Themed Attractions Philippines | August 2024 – December 2024 | Angeles, Pampanga

- Designed API-driven automation solutions integrating multiple platforms into a centralised SaaS ecosystem, streamlining sales and operational workflows.
- Developed scalable FastAPI backend services orchestrating ERP, e-commerce, and external partner API workflows with resilient error handling, retry mechanisms, and monitoring.
- Implemented automated data exchange pipelines synchronising customers, orders, inventory, and operational records between disparate systems.

Software Developer

Temarotech | January 2024 – August 2024 | Makati, Philippines

- Developed and maintained Laravel (PHP) web applications with Vue.js, JavaScript, and jQuery front-end interfaces.
- Debugged legacy codebases and maintained stability of core database operations (MySQL, PostgreSQL).

Lead Web Developer

GOCLOUD Inc. | May 2019 – January 2024 | San Fernando, Pampanga

- Led Agile engineering team delivering enterprise web applications including e-commerce platforms, school management systems, and hospital information systems.
- Architected scalable backend microservices using Python and PHP; guided AWS cloud deployments ensuring environment stability and cost-effective resource allocation.
- Mentored junior and mid-level developers through code reviews, workshops, and pair programming; served as technical liaison between stakeholders and development team.

TECHNICAL SKILLS

Generative AI & Agentic AI: RAG, Agentic AI, AI Agents, OpenAI API, LLM Integration, LangChain, LangGraph, Prompt Engineering, MongoDB Vector Search, Semantic Search

Backend Development: Python, FastAPI, PHP, Laravel, JavaScript, Django, REST APIs

Cloud & DevOps: AWS Serverless, Amazon Lambda, Amazon API Gateway, CI/CD, AWS Well-Architected Framework, AWS DataSync, AWS Data Migration

Databases: MongoDB, PostgreSQL, MySQL

Architecture & Leadership: Microservices, Distributed Systems, System Design, API Integration, Workflow Automation, Agile/Scrum, Team Leadership, Stakeholder Management

EDUCATION

Bachelor of Science in Information Systems | La Verdad Christian College, Apalit, Pampanga | 2015 – 2019

CERTIFICATIONS & PROFESSIONAL CREDENTIALS

Amazon Web Services (AWS)

AWS Well-Architected Proficient • Jun 2026

Serverless – Training Badge • Jun 2026

Amazon ECS – Training Badge • Jun 2026

Amazon EKS – Training Badge • Jun 2026

Data Migration – Training Badge • Jun 2026

MongoDB

Building AI Agents with MongoDB • Jun 2026

Building RAG Apps Using MongoDB • Jun 2026

LangChain Academy

LangChain Essentials – Python • Jun 2026

LangGraph Essentials – Python • Jun 2026
